## Just a few

### Kapitel 6: Good bye! And hello!

It's late at night and I am crying.  
Tears of loneliness and sorrow running down my cheeks.  
I wonder that I am not dying.  
My heart broke into thousand pieces at the time you said goodbye.  
It feels like pain will never end.  
Think I can't love anymore.  
Things you said and done are whirling 'round my mind.  
Never believe it!  
I see you, I feel you, but it's not real.  
I'm just dreaming of you and the good times we had.  
And now I realise that life will go on.  
A new love will come.  
And I will live till the end of my time!  
Good bye! And hello!
