

# I'm sorry for being who I am

Von Fusselkeks

## Without words

I'm sorry for being who I am,  
I'm sorry for not being rich,  
I'm sorry for loving you so much,  
I'm sorry for telling you the truth.

I can never change who you are,  
I can not change who I am now,  
I can cry as much as I want,  
but this won't bring you back to me.

Please, let us stay friends for now,  
Please, let me tell you what I feel,  
Please show me that you got a heart,  
Please show me your true art...

I love you, it's my only fault,  
I hate you is not, what I can say,  
I need you, is what you should know,  
I lost you, because I did the wrong.

Even if my heart is crying,  
Even if I'm now inside dying,  
Even if I lost my boyfriend,  
Even if I'm not worth it...

I'll gonna live on for you,  
I'll gonna wait for you,  
I'll gonna show what I feel to you,  
I'll gonna forgive myself!

All I ever needed was you,  
All I ever loved was you,  
All I ever hurt was you,  
All you deserve is better.

I'm not gonna cry a single tear,  
I'm not gonna laugh for sure,  
I'm not gonna hate anything,  
I'm just loving and waiting for you!
